

Automotive Rubber Wiring Hardness Seal Ring

KINGTOM is a major manufacturer and supplier of rubber products in China. Rubber Wiring Hardness Seal Ring plays a very important role in the contradiction between leakage and sealing, and solves the leakage and sealing problems in the process of human conquest of nature. It has been promoting technological progress, which is an important way to prevent and reduce environmental pollution.

KINGTOM is a major manufacturer and supplier of rubber products in China. **Rubber Wiring Hardness Seal Ring** plays a very important role in the contradiction between leakage and sealing, and solves the leakage and sealing problems in the process of human conquest of nature. It has been promoting technological progress, which is an important way to prevent and reduce environmental pollution.

Product Parameter of the Automotive Rubber Wiring Hardness Seal Ring:

- ① Product name: **Automotive Rubber Wiring Hardness Seal Ring**
- ② Material: EPDM NBR Silicon or Can Custom
- ③ Logo: Can Custom
- ④ Size: Can Custom
- ⑤ Can Custom: Black or custom
- ⑥ Application: Automotive
- ⑦ Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧ Delivery: 30 -50days after sample confirmation
- ⑨ Sample: 25-30 days
- ⑩ Payment: 30% deposit, 70% payment before shipment
- ⑪ Package: PE bags, Cartons,Pallet

⑫ Payment Terms: T/T,L/C and so on.

⑬ Shipment Way: Vessel,Air,Express etc.

Product Feature AND Application of the **Automotive Rubber Wiring Hardness Seal**

Ring:

Automotive rubber seal ring is to close the box room oil overflow gap, and prevent dust, sand and other dirt into the box interior, but if the installation or improper use, easy to cause oil leakage, affect the normal work of the machine, 75-A cause burned bearings, broken gear, screw off the drive shaft or other serious faults.

Environmental protection machinery, as a rapidly rising new industry in China, will open up a new market for hydraulic and pneumatic seals. With the development of automobile and petroleum industry, rubber parts in addition to oil resistance, also need to have good heat resistance, high temperature resistance, high pressure, oxygen resistance and other characteristics.
